| <p>List No 44 & onwards are in a constant state of development as we buy collections and sell from stock. We do not have regular wholesalers for this material and so the countries are never completely in stock. If you are missing a few items, send us your wants list. If you are missing many, download a price list & highlight the items required. We obtain MUH new issues for countries marked with a ♥ Consequently, stock is comprehensive and in depth. For others, we ceased acquiring Territories & Pacifics new issues in 1986, Australian covers in 1996 and stamps in 2007. However, we frequently have stock from collections we purchased after those dates. Please enquire.</p> | | | |
