		<p><i>This PSB was issued at a premium of 95p above face (as we expected). This booklet contains the following panes printed by Cartor or ITVF in litho. The Machin pane has solid, non-graded A2B phosphor bands as expected with a litho printing. All other panes are all over A2B phosphor [AOP].</i></p>

		<p>Pane 4 50p Windsor Castle x 4 definitive (intaglio; rest of pane in litho); A2B fluor; standard perfs</p>		AOP	ITVF/Int	A2B	6.20		
		<p>Pane 1 is the first Machins pane printed by Cartor in litho, so all of the stamps are new. The phosphor bands on the 5p brown fluoresce bright red under UV, whilst the rest fluoresce bright whitish blue. All have elliptical perforations. The shade of the NVI 1st (gold) is closer to olive green than gold. The 76p stamp is a new denomination. All stamps except the 5p have an iridescent overlay with embedded MPIL M11L code. The overlay is very weak and hard to see. The commemorative stamps in Panes 2 & 3 appear in the M/S but, as is the practice with SG, are likely to be accorded separate catalogue status. Stamps from the PSB pane have white perf tips; those from the M/S are yellow. The 50p Windsor Castle stamp from Pane 4 has appeared previously in the 2005 Castles M/S. However, the one from the PSB is new having a bright buff tinted background (lemon ?), whereas the 2005 stamp is on a pale tinted background. The gums from each source also vary in texture. The perforations are identical.</p>

GB	14.9.11	Arnold Machin's Birth Centenary M/S NVI 1st gold, ex M/S This is a rather uninspirational M/S / sheetlet to say the least. Given the enormity and colours of the Machin range, endless opportunities for a colourful and attractive sheetlet abounded. Alas, the opportunity is lost. The sheet contains a new stamp for the Machin specialist. 0. The iridescent over lay contains two codes: AMII located on the second top row to the left of the Queen's diadem. The second code is MMIL also located on the second top row but to the right of the Queen's diadem. This is a new code with the M indicating Mini-sheet, with the AM code possibly standing for Arnold Machin. Consequently, it is ironic that this item had to be separately ordered as Royal Mail regards it as a sheetlet -- not a M/S! Confused?				12.65 1.30

GB	9.9.11	<i>Centenary of UK Aerial Post PSB - further comments</i> It now transpires that Pane 4 was not wholly printed by Cartor, which does not have an intaglio press. The stamps were printed by the former French Government Printing Works at Perigeux known as ITVF [Imprimerie des timbres-poste et valeurs fiduciaires] in intaglio, and the rest of the pane by Cartor in litho. The yellow overprint to the stamps was also applied by Cartor as was the AOP. The die used for the prior corresponding M/S stamp was not used, but was re-engraved for the PSB.

GB	14.9.11	 <p>A new set of Faststamps was also issued at the Autumn Stampex to pay tribute to Arnold Machin.</p> <p>The tragedy for collectors is that they were available ONLY from the two machines at the show and not from any other source.</p> <p>This means they are not available from Tallents House.</p> <p>This is reminiscent of the corporate overprint M/S from last year.</p> <p>Why Royal Mail persists with this poor service standard in what is a highly competitive new issue market, is difficult to fathom.</p>

Price adjustments are below:</p> <p>Gothic Art (sa) -- this booklet contained 12 stamps, not 1 as listed; price charged \$1.40 should have been \$16.45</p>						15.05
