 BOOKLETS WITH ERRORS
 AIRLETTERS - ENGLAND, SCOTLAND, WALES

To find an item in this list, please use Adobe's powerful search function.

To execute a search, click on the little binoculars in Adobe's toolbar.

You may then search for sections, eg "folded" or "50p", or catalogue numbers eg "HC11c", or panes eg "DP109", or subjects eg "pig".

Remember, you are searching for what is printed in this list, so a search for "SGDX4" will fail as that alpha-numeric sequence does not exist.

**WE OFFER A NEW ISSUE SERVICE
 FOR GREAT BRITAIN BOOKLETS.
 PLEASE ENQUIRE.**

SG does not list all booklet variations.

We show unlisted items using adapted SG numbers in italics, eg *KX19x*

Prices subject to change without notice.

Please note that GST (currently 10%) is applicable from 1 July 2000.

International sales are GST free.

**The prices in this list
 INCLUDE
 GST**

All prices are in Australian dollars.

LIST CONSTRUCTION

Compiling any price list can be a nightmare, especially deciding upon the reference system(s) to use.

Our starting premise is that Stanley Gibbons is the catalogue of choice for most GB collectors, either *Part 1 British Commonwealth, Collect British Stamps* or *GB Concise*. All three volumes employ the same reference system.

SG *Great Britain Specialised (Vols 4 & 5)* uses another reference system, but cross references stamps only to the above system.

Notwithstanding SG's popularity, the definitive word on all aspects of GB decimal booklets is provided by the Great Britain Decimal Stamp Book Study Circle [GB DSB SC], now The Modern British Philatelic Circle [MBPC].

The Study's definitive publications are *The Bookmark Catalogue* 7th ed 1999 (+ 2000 supplement) + *The Bookmark Catalogue - Self Adhesive Stamp Books* 1st edition 2005, supplemented by *The Bookmark Journal*.

Firstly, note that the GB DSB SC deals with only DECIMAL booklets and panes. It does NOT list predecimal books / panes.

Secondly, it has developed its own reference system based upon the DP [Decimal Pane] and DB [Decimal Book] nomenclature.

This system is considered the definitive reference for these booklets and the DP system, with permission, is followed by other catalogue publishers such as Connoisseur, Machin Specialists Club and Deegam (the definitive Machin reference).

Consequently, this price list follows the DP system of pane reference but also shows SG (simplified) pane numbers or SG Specialised pane numbers where simplified numbers do not exist.

If you are unfamiliar with the DB / DP system, an abridged version may be found on the GB DSB SC website at

www.gbdsbsc.co.uk. Membership details are also available on the site [the annual subscription is VERY modest].

The MBPC commenced late 2005. Its web site is www.mbp-circle.co.uk. The scope of the new circle is modern British philately post King George VI. Presumably, predecimal booklets (Machin & Wilding) will emerge as part of the Circle's focus. Again, membership details are on the new web site.

The first GB self adhesive product appeared as a trial in the form of a booklet in 1993. Subsequently, self adhesives have gained strong popularity with the public (world wide). Consequently, Royal Mail has increased the volume of self adhesives from the beginning

of 2001 with some talk of eventually replacing conventionally gummed stamps completely, thus eliminating the need to "lick".

However, in so doing, Royal Mail has changed the form in which stamps are issued by issuing sheets (Z folded), sheetlets

(rouletted to fold like a booklet), booklets, rolls (in box dispensers) and large coils.

This has resulted in substantial debate as to what is a "booklet" and what is the scope of the GB DSB SC.

Clearly, the days of the conventional booklet are gone. Already, one prestige booklet has contained a self adhesive pane.

This has forced the GB DSB SC (& Deegam) to reconsider their nomenclature for self adhesive products.

The GB DSB SC has now finalised a SA (Self Adhesive) / SP (Self adhesive Pane) system and has renumbered all

self adhesive items (except coils/rolls; considered outside the scope of the Circle) from the 1993 issue.

They identify (for now) 8 categories of self adhesive products. Those which contain:

SA1	1st class definitives only	SA5	labels
SA2	2nd class definitives only	SA6	commemorative / special stamps only
SA3	special (commemorative) stamps with definitives	SA7	1st class business sheets
SA4	overseas rate definitives	SA8	2nd class business sheets

Deegam has adopted a similar system based upon the chronological issue of self adhesive products, thus SAP, without pane references.

This price list follows the GB DSB SC nomenclature for self adhesive "products".
