To find an item in this list, please use Adobe's powerful search function.

To execute a search, click on the little binoculars in Adobe's toolbar.

You may then search for sections, eg "officials", or catalogue numbers eg "237", or subjects eg "aircraft". Remember, you are searching for what is printed in this list, so a search for "SG237" will fail as that alpha-numeric sequence does not exist.

We obtain our stock from collections we purchase.

We do not have an Italy supplier.

Consequently, where something is unpriced, we do not have it at present.

However, please advise us of your wants as it may come into stock later.

We list all items we have in stock, including broken sets, and singles from sets.

**Prices subject to change without notice.**

Fine Used stamps include mint stamps without gum or postmark.

**Please note that GST (currently 10%) is applicable from 1 July 2000.**

				<b>Different Fluor Reaction</b> See the notation after SG1222 in Part 8 -- Italy & Switzerland. Normally the fluor UV reaction is yellow (with cream gum). Some definitives were printed with fluor reacting white under UV, and with white (PVA) gum. Issues with weak yellow fluor also exist providing a range of intermediate shades. Stamps available with white fluor reactions are indicated above by ** for MUH & ++ for Fine Used Their price is the same for yellow fluor stamps.
