LIST NO 5A

AUSTRALIA: DECIMAL PLATE & OTHER VARIETIES

List Structure:

Plate varieties - catalogued & uncatalogued
 Printing varieties - catalogued & uncatalogued
 Sheet number & gutter varieties

Decimal USED stamps with plate varieties vary in condition from fine used examples (generally neat hand CDS) to those 'damaged' to some degree.

Even on the sorrier specimens, the plate variety remains discernible.

Accordingly, prices for used stamps are provided in 3 states - fine used; used; and sad used (used with varying defects ranging from minor imperfections to significant damage).

Pricing reflects the state of any defects.

To find an item in this list, please use Adobe's powerful search function.

To execute a search, click on the little binoculars in Adobe's toolbar.

You may then search for sections, eg "1966", or catalogue numbers eg "516g", or subjects eg "retouch". Remember, you are searching for what is printed in this list, so a search for "ASC 516g" will fail as that alpha-numeric sequence does not exist.

We obtain our stock from collections we purchase.

Consequently, where something is unpriced, we do not have it at present.

However, please advise us of your wants as it may come into stock later.

Prices subject to change without notice.

Please note that GST (currently 10%) is applicable from 1 July 2000.

International sales are GST free.

The prices in this list

INCLUDE

GST

All prices are in Australian dollars.

16-Oct-2005
