<b>FLIGHT COVERS</b>
----------------------

**LEGEND** AAMC = Australian Air Mail Catalogue, 6th edition 1997, by Nelson Eustis.

P = Plain (unillustrated) cover

A = addressed cover (relevant for some decimal covers)

Flight covers are generally addressed, apart from some modern Australia Post items. They also reflect their age, the conditions under which they were carried and the addressing capabilities of the day. Only modern covers are specially printed. Most items pre 1966, and some of the early decimals, are on plain covers. These have been identified only when considered necessary.
